# floor plan inspires makeover

The Fall 2006 issue of *Kitchen Makeovers*® was a keeper for one reader

When Lee Zelina of Whitehouse, Ohio, met with designer Michele Rose, her kitchen layout was already decided. "Lee brought in this tattered page," Rose says. After studying the floor plan and visiting Lee's kitchen, she agreed that the floor plan would work and Lee would not have to change any walls. "The new island configuration makes the island a focal point and lets the cook interact with family and friends while working in the kitchen," Rose says.

Budget: \$27,060

**Homeowner:**

Lee and Matt Zelina,  
Whitehouse, Ohio

**Designer: Michele Rose,**

Blue Creek Cabinet Co.,  
Swanton, Ohio

**Biggest change:** Removing the dark peninsula and the cabinets above it.

**What we like best:** We love it when a *Kitchen Makeovers* story inspires a reader!
